Petite Lake Ski School Plan Under Fire

Long Lake residents are mounting a massive petition campaign to block the May 15 opening of a water ski school they say will clog their already busy lake.

The petitions will be presented to Sheriff Robert "Mickey" Babcox on the grounds that the school will endanger boating safety and to County Building Officer Robert Streicher on the grounds that the school violates zoning requirements.

Target of the protest campaign is Roger Kring of Wonder Lake, McHenry County, who is the founder and operator of Water Skiing Centers of Northern Illinois.

Kring plans to operate his school from two locations: Frigate Restaurant, Long Lake, located on Rollins Rd. between Fairfield Rd. and Wilson Rd., and Cypress Shores Resort, Petite Lake, located at 25621 W. Herman Ave., Antioch.

In promotional literature, Kring is designing the school for beginners, with the aim of providing professional help to get beginners to "ski like an expert in one summer."

The petitioning drive is being coordinated by the Long Lake Health and Sanitation Assn., North Shore Property Owners Assn. and the Long Lake Yacht Club.

Robert Murray of Fox Lake, commodore of the yacht club, said that the school will be in direct conflict with the quarter century old club's organized Saturday and Sunday sailing program.

"With our fleet of about two dozen boats, scores of fishermen and private residents water skiing with their own equipment, we'll have a very dangerous condition on Long Lake if the school is permitted to operate," Murray declared.

Sander Sundberg, president of the health and sanitation organization, which has been in existence since 1909, said that his understanding is that the premises at Frigate, formerly Sabatini's Restaurant, are not zoned for a school.

Both Murray and Sundberg pointed out that Long Lake is almost wholly residential, with only a few public access points.

Ralph Sabatini, manager of Frigate, told citizens opposed to the school that he expects the students to stimulate business.

At a meeting of the Long Lake Yacht Club on Saturday, May 2, members were told that the school could be expected to attract between 1,000 and 3,000 students this summer.

Dist. 34 Sees Contract Pact, Gains Revenue

by GLORIA DAVIS

After that long harangue of the Antioch High School teachers' contract negotiations last fall, residents of grade school Dist. 34 will be happy to hear that the Antioch Grade School teachers' contracts for next year are as good as signed.

According to Dist. 34 Supt. Donald Skidmore, it only took one negotiations meeting in March and one in April to reach an agreement. The agreement is subject to ratification by both sides, but that is expected to happen at a meeting on May 7.

Skidmore said that he could not reveal the components of the agreement till then, but he added that the teachers had received a salary raise.

The other good news announced by Skidmore at the meeting on April 28 was that the school district will be having a little more revenue coming in.

"For many years we have been operating on our cash reserves as costs have increased and revenues decreased," said Skidmore. Beginning this year, with an assessed valuation increase of $8,251,423, the total tax rate which had been projected at 2.577 will be 2.575, and the school will still have more operating capital.

"It's a good thing, all our reserves are gone," said Skidmore.

The flare-up of new construction in the area and the annexation of part of Newport School Dist. are the major causes of the valuation increase.

"This really shows the climate of growth in the Antioch area," added Skidmore.

In other business, the board:

— approved the purchase of a used one-ton pickup truck for $4,800.

— changed the last day of school from June 11 to June 4 because of lack of use of allowed snow days (provided there are no emergency days between now and the end of the school year.)

— approved the taking of bids on June 15 for a new roof on Oakland Grade School. Bids are expected to be in the area of $200,000. After accepting a bid, the board will discuss the many alternative ways of paying for the roof with the issueing of bonds one of the viable ones.

Bust Two On Drug Charges

After a month long investigation by the Antioch Police Dept. and Lake County MEGs, Antioch police, with the assistance of the Lake County SIU Unit, arrested one Wisconsin and one Illinois man for drug pushing. One arrest was made inside of an Antioch bar on Friday and the other in the parking lot.

Michael Dennis, 25, Twin Lakes, was charged with one count of delivery of an uncontrolled substance and one count of possession. The warrant carried a $30,000 bond.

Michael Gers, 23, Antioch, was charged with two counts of delivery and possession. The warrant carried a bond of $40,000. Gers is reportedly on probation in Wisconsin for prior drug delivery.

Scouts On Pilgrimage

Boy Scout Troop 190, sponsored by St. Peter's Parish, Antioch, participated in the 1987 Lincoln Pilgrimage in Springfield on April 26.

Troop 190 was among 600 BSA, GSUS and Camp Fire Youth units. An estimated 10,000 youth from six states were in attendance.

Ceremonies at Lincoln's Tomb began at 2:15 p.m. Honorable John A. Davidson, state senator from the 50th Dist., delivered the Lincoln tribute address to the youth and leaders.

Following the address, the Scout and Camp Fire Youth, including Troop 190, marched 10-abreast on the one-and-a-half mile parade route, following a 500-flag color guard to the state capitol where they passed in review.

Attending from Troop 190 were Ed Ponsoby, Chris Reifschneider, Kenneth Wisniewski, Jr., Keith Wisniewski, Kevin Wisniewski, Tom Totten, Todd Allen, Chris Bracey, Mike Cain, John Davisson, Chris Gentleman, Dan Gentleman, Joshua Havenstein, Larry Janke, Brady Maken, Temple Murphy.

Also attending were Scoutmaster Ken Wisniewski, Sr., John Cain, Bob Ponsonby, John Allen, James Davisson, Ken Janke, George Murphy, and Robert Gentleman.

The troop stayed at Lincoln's New Salem State Park with hundreds of other scouts. Visiting the historic town of New Salem, which was like going back in time for the Scouts, was also a major point in the pilgrimage. Other points of interest were Lincoln's home, the Old Capitol building and the Visitor's Center.

Mother Nature Chills Little League Opener

by CAROLYN HAMMOND
(312) 395-6081

Well, she did it again! Who? What? Mother Nature didn't rain out the Opening Day of Antioch Youth Baseball; she "colded" them out.

Traditionally, Antioch Little League has opened on Mother's Day. All those years we mothers sat on the bleachers on "our" day, watching our "pride and joys" play the national past-time, did we realize it was Mother Nature's day too? Guess she had the last laugh this year. You know you can't fool (or beat) Mother Nature! But life goes on and so does baseball, according to the schedule on May 4.

Speaking of schedules...music lovers in Antioch almost had "to flip a coin" this week as two concerts were scheduled for the same time, but in different places. Fourtunately for parents of musicians in both bands, the powers that be, recognized the problem and rectified it.

Antioch Upper Grade School presents its junior and senior band in concert at 7:30 p.m., Wednesday, May 6. Come on out and hear some of the best grade school musicians in the state as they perform under the direction of Earl Bush. It's one of the best shows in town, folks!

If you missed Band-o-Rama last week, you have another chance to hear the Antioch High Schol bands as they perform in concert at 7:30 p.m., Thursday, May 7. The concert band, symphonic band, and jazz ensemble will be featured under the direction of John Olisar.

Tickets will be available at the door. Remember these are teenagers who have chosen to do something productive with their time. Band is an extracurricular activity that demands a lot of their time and dedication. Come out and let them know you support them!

Speaking of time, dedication and support...the Antioch Mental Health Assn. will hold its 22nd (that's right, folks) annual Cotillion to help retarded children and adults on Saturday, May 9 at Nippersink Resort in Twin Lakes. For a $30 ticket/donation, you will be entitled to cocktails and appetizers to be followed by dinner and then dancing to the music of the group, Arcade.

Antioch's own Lloyd Pedersen, now a Los Angeles entertainer, will also be present to provide a special treat. Reservations may be made to spend the night and play golf and have breakfast on Sunday morning. For more information call (312) 395-3648 or (312) 395-0305.

Antioch's newest club--the Antioch Junior Woman's Club, will meet at its new location, the First National Bank of Antioch, 485 Lake St. at 7 p.m., Tuesday, May 12. For more information call (312) 395-4104 or (312) 395-2147.

Antioch Grade School PTO announces it's annual book fair/art fair to be held in conjunction with its spring general meeting at 7 p.m., Wednesday, May 13, at Antioch Grade School. Refreshments will be provided.

Finally the day is almost here! What day you say? The day of Grass Lake PTO's first annual spring festival, Saturday, May 16 from 10 a.m. to 4 p.m. They have planned activities in four different functions: Chance Corner, Peddler's Market, Stage Top Cafe, and Fun Fair. At Chance Corner there are some fabulous prizes donated by over 150 businesses waiting for some lucky persons including a 10-speed Schwinn bicycle, boom box, water ski vests, rafts, fishing equipment, tools and household items.

Mark your calendar. You won't want to miss this event! Here's a good chance to help Grass Lake School as well as yourselves.

System Begs For Tort Reform

For anyone who appreciates the crying need for tort reform to help curb wildly escalating malpractice insurance claims in Illinois, the status quo is both dismaying and frustrating. Quickly, the situation boils down to a lawyers-vs.-doctors controversy. This is deplorable because the debate overshadows reason and good sense. Almost as an afterthought, the philosophy of what constitutes appropriate community health care policy comes into play.

Even worse, the debate waging over tort reform has polarized the political arena with Democrats taking a strong stand on the side of trial lawyers and Republicans, perhaps somewhat reluctantly, tending to side with physicians.

Basically, health care professionals are arguing that laws must be changed limiting claims paid in malpractice litigation on the theory that the spiraling insurance premiums paid by doctors and hospitals are passed along to the public, thus pushing health care costs higher and higher.

At present, doctors are campaigning for a cap on non-economic losses and a statute of limitations on claims for youths. Lake County physicians joined colleagues from around the state on Wednesday, May 6, in a demonstration in Springfield to dramatize their cause.

Trial lawyers have responded with a resounding "no way." And they have backed their stand with solid dollars, perfectly legal political action contributions to Democrats and a few Republicans. With the Democrats holding a solid majority in both houses of the General Assembly, the outlook for tort reform in this session is bleak, indeed, House Speaker Michael Madigan, the reigning Democrat, was able to pass out $200,000 in campaign funds courtesy of the trial lawyers' PAC program.

An irony of the struggle is that leadership is centered in Waukegan in the form of a tort reform effort sponsored by Victory Hospital and Atty. David Becker, spokesman for Illinois trial lawyers.

Caps on non-economic losses have worked well in California and Indiana without trampling of individual rights and with no apparent contribution to reckless conduct on the part of medical practitioners. An example of what has happened in Illinois due to heightened awareness of potential malpractice action is a dramatic proliferation of caesarian sections.

Concerned physicians see as natural allies the 240 hospitals in Illinois and their patient base. Mobilizing individual citizens, however, is a monumental task that could take years. Is there another cohesive special interest group that could come forward and help carry the torch for tort reform?

While tort reform forces are building to match strength with the militancy and financial resources of the trial lawyers, doctors and hospitals have no choice but to pass on malpractice insurance costs to the consumer. That is a tragedy and the basic unfairness of it all.

Decentralized Disposal

An ever-growing solid waste disposal problem is one of the major public issues of the day in our locality. Public officials pondering a proposal from Waste Management for a centralized landfill-incinerator plan, have kicked off a hornet's nest of opposition from concerned citizens.

While the problem appears to be growing in magnitude, a suggestion has been put forward that in its simplicity and practicality warrants a second glance. The solution to Lake County's solid waste imbroglio is the brainchild of Joe Drobnick, Waukegan realtor and developer.

Instead of a super-solid waste disposal center, as has been proposed for a site near Grayslake, Drobnick suggests that Lake County be divided into four waste disposal districts each with its own waste disposal/recycling system. Drobnick says his decentralized plan would be fair and equitable, eliminating expensive hauling and providing a readily available backup system in the event of breakdowns.

The Drobnick plan is intriguing because it deals with a critical disposal bugaboo of no one wanting a garbage dump in their own neighborhood. Take care of your own daily trash in your own area, is the way Drobnick puts it. Simplistic? Off-the-wall? Not at all, in our opinion. Who has the courage to give the Drobnick plan more than a passing glance?

Original Intent Of Duncan Pool Gets Sidetracked

by BILL SCHROEDER

Anyone who has ever had a chair pulled out from under them will appreciate how member families and users of the Camp Duncan YMCA pool feel about a decision of the Chicago Metropolitan Y elders to close the pool to the community August 15.

Swimmers using the Olympic-size facility located on a 400-acre wooded tract near Volo were flabbergasted at the closing edict handed out by the met board of managers. Their surprise at losing a valuable recreational facility in use for 15 years, one they helped to build, has turned to anger. We don't blame them.

The Camp Duncan pool, first formulated as a community dream in the late 1960s, came into being when a Duncan board of directors composed of Chicago businessmen and Lakeland civic leaders was organized. A survey taken in the fall of 1969 showed that an area including Fox Lake, Round Lake, McHenry and Wauconda would support the pool. Several years later sufficient funds were raised to build the pool and the service area was expanded.

Following the original cry of outrage, to their credit the Y leaders downtown have adopted a posture of "let's take a second look at this." Their closing reasons encompassed in vague terms to "focus" on resident camping as a main mission and the fact that the pool has been subsidized by met funds have wilted under charges that users were never informed of possible financial difficulties and that member families are willing to do whatever is necessary to keep the pool open for their use.

George Watson of Holiday Park, Wooster Lake, long-time Camp Duncan board member and past chairman, expressed surprise and dismay at the closing notice. He pointed out that the pool was designed for local use and purposely kept separate from camping facilities at the camp, which has been a part of the YMCA system for more than 50 years, largely providing an outdoor experience for inner-city youths. "We abided by YMCA rules, of course, but our local board was pretty much on its own as far as the pool was concerned," Watson recalled. He described what appeared to be a metropolitan policy in the late 1970s to dilute the influence of the separate Camp Duncan Y board.

"Our board just sort of disintegrated. They eventually took away our Christmas party for underprivileged children. We ran bingo to help funding. The Parents Club of the Duncan swim team was very helpful," Watson mentioned as he recalled how Camp Duncan swimmers won national meets and developed outstanding swimmers.

Henry Gardner, Jr., owner of a printing concern, and William Pope, operator of a construction company, provided key Chicago contacts. The late State Sen. Robert Coulson and the late Harry Robin, west Lake County political leader, were among original board members. Joseph Tobolik, who now resides in Ingleside, was executive camp director during the pool building project. His experience as Y professional was instrumental in the pool becoming a reality. Esper Pedersen, Jr. of Gurnee arranged a major gift from the Esper Pederson, Sr. Foundation to put a fundraising program over the top for construction that eventually totalled approximately $300,000.

We hope something can be worked out between the pool users and the YMCA board of managers. What the controversy boils down to is something being taken away that belongs to the people. With renewed interest perhaps the pool can remain open for school use and use by people of all ages, like it was in the past and was originally intended to be used.

Letters To The Editor

Question Proposal

Editor:

The Religious Society of Friends (Quakers) has long been concerned with protecting the environment. It is this concern that leads us to question the proposal by Waste Management, Inc. to construct and operate a landfill and incinerator in Fremont Twp. and its potentially serious impact on the surrounding areas.

We question the proposal for several reasons:

—Municipal waste inherently contains hazardous materials. Burning the waste would only create higher concentrations of these materials. The residue would then be stored in the landfill with the likelihood that the hazardous materials would leak into nearby water tables.

—Airborne pollutants from the incinerator would compound Lake County's well-documented air pollution problem. There have been a high number of official pollution advisories and alerts in the past, and automobile emission control regulations have been issued for a large part of the county including the area immediately downwind from the site proposed for the incinerator.

—The facility would use in excess of 500,000 gallons of water a day. This raises concerns about not only the potential impact upon area water supplies, but also the disposal of the contaminated water.

—The facility would draw from within Lake County and from beyond the county's borders. Traffic to and from the facility would have a major impact upon the area. Major road construction and maintenance programs would be needed. It is also possible that railroad crossings would have to undergo improvements.

—Local governments would be faced with the cost for water treatment facilities, for road and rail improvements, for air and water pollution monitoring equipment, for resources needed to respond to emergencies that may arise from the proposed facility, and for measures needed to meet even more stringent federal pollution control regulations.

—Proposals that could lessen to a large extent the impact of and the need for the proposed facility have not been given sufficient consideration. The most significant of these measures would be ones encouraging recycling of a large portion of our municipal waste.

Get All The Facts

Editor:

Why the big push or rush to go out (and right now) and obligate all the taxpayers of Lake County for millions of dollars at high interest to be paid with ever higher and higher yearly real estate (property) taxes.

Why not have all the facts on the better and proper methods of waste removal presented to the public as to the: 1)original cost in dollars; 2)yearly cost of repayment of the principal on bonds to be issued; 3)yearly cost of the interest payment on such bonds; 4)yearly cost of maintenance of building, equipment and grounds; 5)yearly cost of employees salaries; 6)yearly cost of pension plans; and 7)yearly cost of insurance premiums.

Why not first advise the public of the total cost on the two or three possible and acceptable plans and then let the public decide what is best.

Businesses Operating Illegally Near Homes

by LARRY WITTNEBERT

Businesses operating in residential neighborhoods claim an unfair tax advantage, pose a nuisance and break the law, according to a group protesting them.

For example, those businesses run unchecked in West Miltmore even though the deed prohibits them, notes Jeff Lieber, chairman of the Building and Zoning Committee of Lake Villa Township.

Lieber, heading up a protest group, blames the county's building and zoning department directed by Robert Streicher. He says that Streicher must be "either too stupid to know what he's doing or corrupt."

In one case, notes the outraged Lieber, the county even awarded a contract to a business operating in a residential area.

He points out that some businesses try to conceal their operation behind fences and that practice has paid off. Streicher has said that if building and zoning officials are unable to see the alleged violation, they can't venture onto private property, Lieber says.

On top of that, the protesters charge that Streicher plays favors. "Some contractors are ridden by building and zoning while others have carte blance," said Jo Garrett.

The homeowners get left out in the cold, indicates Lieber, saying that "without a good department to protect the homeowner, we're in a lawless territory."

He also contends that Streicher treats the unincorporated areas as a stepchild when it comes to enforcing building and zoning rules. One reason, he says, is that Streicher has entered into legal contracts for services in some villages, giving him a monetary interest besides his job.

Streicher also fails to respond if the complaint requires an overtime call, Lieber notes. Yet some of the businesses are moonlighters and can only be noticed after hours.

Besides operating in illegal areas, businesses pose a nuisance and hazard, the protesters note. Lieber says that one business burns debris from excavated land, causing "the residential community to choke and gag."

Another firm operates heavy, noisy trucks while still another started loud car repair at 6 in the morning.

Businesses also get an unfair tax advantage which in effect makes them subsidized by other taxpayers. Heavy trucks operate on roads not intended to carry such weights, forcing eventual repair.

Such businesses don't operate in commercial areas and thereby evade their appropriate tax responsibility, the group claims.

Thus, as Garrett says, "The little guy is paying to keep these guys in business."

Lieber also points out that the businesses "change the character of a community and lessen its value." He adds that they also cause any eyesore with equipment and other supplies standing near homes.

CLC Instructor Writes History

The history of the College of Lake County, written by CLC social science instructor Ruth Rickard, is now on sale at the CLC bookstore.

Copies of the book, entitled "College of Lake County: Reflector of and Reactor to the Needs of the Changing Times--The Story of the College Under Two Administrations," are also available for check out at the CLC library. There are plans to place copies in other Lake County libraries in the near future.

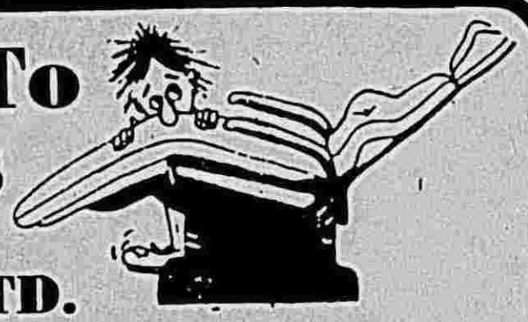

Rickard, a member of the college faculty since CLC's founding in 1967, wrote the history at the request of former CLC president Dr. John O. Hunter. The 350-page book traces the history of CLC through its founding until 1986 and includes many interesting anecdotes about the people and events of the college's past 20 years.

Copies of the book cost $3.

Government Has Egg On Face With HMO's

Medical Musings

By Leo Tannenbaum, M.D.

In our last column, we asked when the government would wake up to the fact that it was backing the wrong horse in its approach to medical care. It was actively spending millions favoring and even subsidizing the HMO approach to medicine and hampering another. We also suggested the ship of state was so ponderous that stopping it or changing course was well nigh impossible.

But lo! The U.S. Senate reported April 6 that there were many worms in the HMO apple. Since first Musings began pointing to these "worms" in our first column in January, it has been so obvious that not even the government should have missed some rather unsavory doings by some groups that Congress was blindly promoting.

Found in the HMO report: Senior citizens were frequently misled by unscrupulous media advertising. If unprofitable, medical care might be cut off abruptly. Quality care was often in doubt. Uncle Sam has been unwilling to allow private medicine to police itself, but surprisingly allowed the groups it was subsidizing to do that. This resulted in a group operatng in an unhealthy manner for three years while complaints poured in before anything was done.

The Senate's report, "Medicare and HMOs: A First Look, With Disturbing Findings," is quite enlightening. To understand it one would have to relive how we got into this mess. The belief that with law, regulation and money infusion medicine will cost less, is the same solution to problems that Congress has had for generations. It rarely, if ever, works for any length of time, and frequently it hurts the industry and the public it was intended to help. But the Congress can't resist "helping out" time after time.

When first the idea of prepaid Health Maintenance Care Organizations (HMOs) were promoted, they were subsidized either by a corporation or a union. Don't forget the word "subsidized." It was never intended for them to be self-sufficient. As they grew and more people joined, paying into it, expectations were for costs to go down.

The plans of both pioneers enrolled only the young age employed people and didn't often get stuck with paying for aged with chronic ailments. With continued subsidization by their sponsors and no time limit, both groups cost the enrollees less because they didn't have to pick up the whole tab. They became shining examples of inexpensive medical care. When our government began to seek less expensive medical care, it seemed reasonable to use them somewhat as model HMOs.

There was a difference though. Subsidies from government involves all taxpayers' money, so you couldn't leave old folks out. As far as I am able to understand it, the plan was to extend seed money (subsidies) for a certain number of years, maybe five. After that the HMOs would be loaded with enrollees and self-sufficient and could enroll the senior citizens with their extra costs, and lo, all the citizenry would be getting inexpensive medical care!

I don't know how this worked with all the HOMs but as you can imagine, there are any number of people willing to start a business if the government will help pay for it. Not all had expertise, medical or otherwise, and some got into trouble long before seniors could be enrolled. Some started new ones nearby so they could use subsidy money from there too. Very few hurried to enroll the seniors that cost more than their premiums.

Someone was sure to see the need for senior enrollment since the government made no secret of it. Soon, armed with the figures, deals were struck where HMOs offered to take the seniors for an additional fee to include all the hospital and doctor costs. Thereafter it was used as a great media blitz to join their HMOs. The government did offer much encouragement. This is great but you still can't get a dime for a nickel.

Results. Hundreds of people claim they are enrolled in HMOs and haven't joined one. They have large bills they didn't get services for, and Medicare is paying HMO bills for patients not getting services. Some high-cost seniors may be dropped from the rolls. This wasn't the way the scenario was supposed to play at all. Sadly, Medicare, because of the expense involved, hasn't funded a proper monitor to watch out for these shenanigans.

MUSINGS: If you feel secure because you're not a senior, don't be. It's coming out of your money And what they do to the old folds are try-outs before extending it to all of us. If its unsavory, remember the seniors are only three percent of enrollees and may be HMO's future. Even though the Senate is disappointed, it's hard to turn a battleship and there are too many people profiting to allow a change of course. And that includes some senators watching constituents.

MUSINGS: Remember in a previous column I mentioned "crisis criers." They add to the cost of medical care. Some have been powerful enough to get the premiums raised on senior citizens in HMOs. In our future columns we'll muse about them and the battles to come.

Dr. Tisa perfects surgical technique

Dr. Lee Tisa, a podiatrist with offices located in Waukegan and Antioch, has perfected a new surgical technique for the permanent correction of bunion foot deformities.

The technique is based on the Swiss Bone Fixation Principles, which took over 40 years to develop and perfect in Europe.

Dr. Tisa said the advantages of the new procedure are many:

- Eliminates the need for a cast after surgery.
- May be done on an outpatient basis, which eliminates costly hospitalization.
- Enables the patient to resume normal shoe gear in three weeks. Other procedures usually take eight to 12 weeks.
- Immediate mobility after surgery without the use of crutches, walkers, or canes.

Dr. Tisa has been preforming the procedure for two years and has written an article which will be published in an upcoming issue of the Journal of Foot Surgery.

With the Swiss Technique Dr. Tisa corrects the bunion deformity by repositioning the bone. The bone is then fixated in the proper position. The patient may exercise the joint immediately, which promotes faster healing and alleviates the usual joint stiffness normally associated with bunion surgery.

Softball Squad Garners Second Skyway League Title

The College of Lake County's softball team wound up their regular-post-season play, ending what has been a very respectable year.

The Lady Lancers finished the season with a 21-13 overall record and an unblemished 12-0 mark in the Skyway Conference, good enough to earn them first place in the conference for the second straight year.

First-year head coach Sue Garcia expresses her recapping of the season. "I was very happy with our performance. We accomplished most of what we set out for at the outset," Garcia said.

The Lancers' offense was as solid as Garcia would have liked, but CLC also came through with good defense and excellent pitching.

Jill Tegtmeyer compiled a 12-12 record as a starting pitcher for the season. She started 20 games, pitched 159.3 innings and compiled an earned run average of 2.06. Tegtmeyer allowed 104 walks, 98 hits, 97 runs while striking out 138 hitters. Tegtmeyer also only allowed 12 doubles and four triples.

Lisa Tylkowski earned herself a 4-1 record on the mound. Highlights include 41 innings pitched and an ERA of 8.03.

DeAnn Poulsen picked up one win against no losses. She pitched five innings but allowed 17 walks in that span. However, she had an ERA of 1.4.

Offesnively, Poulsen sustained a batting average of .378 to lead the team. Behind her were Kelly Hanson at .324, Tegtmeyer at .296, Debbie SCoggin at .271 and Luanne Staranowicz at .258.

Tegtmeyer also led the team with 25 runs-batted-in. Poulsen added 22 on the year.

In the stolen base department, Hanson had 12 and Amy Ruckibeil had 10. Tegtmeyer led the team in solo home runs on the season. She added nine doubles, as did Tylkowski.

to highlight their accomplishments on the campaign, Tylkowski and Tegtmeyer threw back-to-back no-hitters in a doubleheader sweep of Morton. Tegtmeyer also added two more no-hitters druing the course of one week.

Fortunately for CLC, Tegtmeyer will be

returning next year to throw that 55 MPH pitch that she did so often this year.

Despite repeating as conference champions, Lake County continued what one might classify as a slump in the post-season. In the sectionals, hosted by the No. 1 seeded Lancers, proved to be a quick ousting for CLC's season. CLC earned third-place in the tourney, though, beating fourth-place Harper.

Offensively, CLC averaged five runs per game, six hits and had an overall batting average of .262.

Another bright aspect in looking toward next year's team will be the return of Scoggin. Scoggin, Lake County's star catcher, made 127 put-outs. "Debbie did a real good job. She reads the games well and portrays good judgment," Garcia said.

Garcia is already in the process of recruiting high school players for next year and with the return of several players, CLC coulc again take home the Skyway Conference title.

The College of Lake County baseball team has not fared as they would have liked with the regular season winding down.

The Lancers split a doubleheader with conference leading Oakton. CLC won the opener 9-6 but lost the second game 6-2.

With the split, CLC was one game behind and a week later the Lancers' hopes of a Skyway Conference title diminished. CLC lost a doubleheader to one of the weaker league teams in Truman. CLC lost both games 5-2.

Ray Salinas and Ron Ladin took their undefeated records to the mound, only to suffer their first losses of the year. Salinas is now 7-1 while Ladin is 6-1.

The following day, the sun was shining on Lake County, at least in the beginning against visiting Waukesha.

It looked like the Lancers would make quick work of this one, as they jumped out to a 10-0 win in game one. Offensively, Mike Foote belted a two-run homer in the three-hit, three-runs-batted-in game. Salinas was one-for-two with an RBI.

Winning pitcher Brad Frecking went the distance in one of his better performances of the year. Frecking allowed just two hits, while striking out five. He is now 4-2 on the season.

In game two, Waukesha woke up, stinging the Lancers in a 14-7 slugfest. Foote led the way for CLC with three hits and had an RBI. Salinas belted his 12th homer of the season to go along with two runs-batted-in. Gerard Giustino also got into the hitting attack, collecting three hits in the game.

Losing pitcher Jim Kauth suffered the loss, his second against three wins.

With the split, CLC moved to 28-10 overall, 7-5 in the Skyway.

"We're not playing good, smart baseball. We're not getting the hits with runners on base, while our defense is burying us," CLC coach Gene Hanson said.

CLC had four errors in the second game against Waukesha.

Carmel Seeks ESCC Wins

One of the characteristics of a sound baseball team is to bounce back after a loss.

Carmel's squad did just that Monday, whipping St. Patrick 11-4. With the win, coach Joe Pudlo is hoping for better results as the East Suburban Catholic Conference season comes to an end.

"Hopefully we can start eliminating some mistakes and get some momentum not only for the conference games, but for the regional as well," Pudlo said.

The Corsairs hope to get that momentum started when they travel to Joliet Catholic for an ESCC doubleheader May 9. Joliet Catholic had been on the top of the league before losing to Marist Monday.

Pat Halverson, formerly a middle relief specialist, started and picked up the win for Carmel. Halverson fanned five batters while walking four. "He did a nice job," Pudlo said.

The win gave Carmel a 6-9 overall record, 2-3 in ESCC competition.

The win over St. Patrick followed two losses, 11-1 and 10-7, to Notre Dame.

NWSC Teams Hope For Fresh Start In Second Half

by STEVE PETERSON
Sports/Editor

In the second half of the regular season, Grant baseball coach Fritz Kazlausky knows what his Bulldogs need to get over the hump.

An effective third starting pitcher.

"We don't have a third starting pitcher. We're going to need some help in the conference but no one is producing," Kazlausky said.

Grant has been getting along just fine so far with seniors Joe Vocke and Mike McDonald. The Bulldogs, after all, did win their first six games of Northwest Suburban Conference play and were 16-7 overall going into this week's games. But Kazlausky knows that especially come regional time in three weeks, the Bulldogs better have found a third starter.

Grant is at Marian Central in a NWSC clash May 8.

The Bulldogs last week racked up three more NWSC wins - beating Grayslake 8-4, Lake Zurich 9-3 and Marengo 13-5. But the "no third pitcher" dilemma was evident in Grant's 11-6 non-conference loss to Mundelein.

"Mundelein hit our junior pitchers real well," Kazlausky said.

Against Grayslake, Mike Kazlauksy led Grant's eight-hit attack with three-for-four including a homer and athree runs-batted-in.

Grayslake had tied the game at 4-4 before Grant scored three in the third. Grant added its final run in the sixth on a homer by Tom Berwanger.

In the Lake Zurich contest, Vocke allowed just four hits and Grant had offensive balance in collecting 12 hits against the Bears.

McDonald had three rbi's, Frank Geu two hits and two rbi's and Kazlausky had two hits. Six other Bulldogs had at least one hit.

Grant followed the win over Lake Zurich with a 13-5 decision that was not as easy as it may seem.

Grant led by a narrow 6-5 margin before erupting for seven runs in the seventh at Marengo. Eleven hitters were sent to the plate in that frame. Marc Borton's rbi single keyed the hit parade after Vocke walked and Gue had singled. Ken Rasbid then reached on an error on a bunt play, allowing two more runs to score. Clint Morley, Kazlausky and Mike Nielsen all singled before Vocke doubled his second time at bat in the inning.

McDonald got the win with Vocke picking up the save.

Against Mundelein, Grant had a 5-2 lead early before winning pitcher Tom Trahan hit a three-run homer to tie the game. Another homer by Ed Meier gave the Mustangs a 9-5 advantage.

At Wauconda, coach Jim Van Fleet is hoping his young team can climb over the .500 mark in league play.

"If we can win a couple more league games, we'll be satisfied," Van Fleet said.

Wauconda entered this week's play at 4-13 overall, but the Bulldogs have split six NWSC games. Wauconda has beaten Grayslake, Marengo and Lake Zurich.

Senior catcher Todd Marlowe has been the steadiest of Wauconda players, as he has kept his batting average close to or above the .400 mark.

"He works well with our young pitchers, too," Van Fleet said.

One of those young pitchers is Chris Wilson. Wilson, a junior, had picked up two of Wauconda's three league wins.

Wauconda is at Lake Zurich May 8.

At Grayslake, coach Jim Haas will be hoping his team can find some defense in the last few games.

"It's been defense more than anything that's been the problem. We're committing both mental and physical errors," Haas said.

The Rams fell to 2-5 in league play and 3-9 overall after losing to Grant 8-4, Johnsburg 9-5, Lake Zurich 8-4 and Wauconda 11-6.

The Rams hope to turn fortune their way starting May 8 when they play at Round Lake.

At Round Lake, coach Jim Prorock is hoping his Panthers can rediscover the basics that led them to early-season success.

"We're beating ourselves. We're leaving a lot of men on base and not getting the key hit. We just have to relax and play the kind of ball we are capable of," Prorock said.

The Panthers slipped to 3-4 in the NWSC, 6-8 overall after dropping three of four league games last week.

Round Lake's only win came in a 12-2 hammering of Wauconda. The Panthers had 14 hits in that contest led by Joe Laubinger's three-for-four with three rbi's and Damon Horn's two-for-three with three rbi's.

Horn pitched a three-hitter to get the win.

In other games, the Panthers fell to Lake Zurich 11-10, Marian Central 8-2 and Johnsburg 6-4.

Round Lake hosts Grayslake May 8.

At Johnsburg, the Skyhawks are hoping they have turned the corner that will lead them to a successful second half of league play.

"We had a fairly good week. The whole attitude of the team has been better the last few games," coach Wayne Hiller said.

Winning, of course, helps that attitude. Last week Johnsburg bounced back from a poor start to post two league wins for a 3-4 league mark, 3-6 overall. Johnsburg lost to Marian Central 16-6, but beat Grayslake 9-5 and Round Lake 6-4.

Frank Husak picked up the win against Grayslake in his first start of the season. He allowed the Rams just three hits.

Serene Grandeur Sets Scene At Cades Cove

There is an almost overwhelming feeling of serenity in this broad valley surrounded by the soaring peaks of the Great Smoky Mountains National Park.

The log cabins and split-rail fences of a century ago still stand in clearings at the foot of the mountain slopes. An ancient grist mill powered by a small stream still grinds corn. White-tailed deer graze in the wide meadows beside white-faced cattle. An occasional black bear wanders down into the valley from the wilderness rising up the mountain slopes. Wild turkeys can sometimes be seen at the edge of the forest, and groundhogs regularly scold intruders from the mounds of their burrows beside the narrow two-lane road.

Cades Cove is an oasis of tranquility in the otherwise urban world on the far side of the high mountains.

"The popular myth about Cades Cove is that it was a very remote and isolated place, untouched by the modern world," says Dr. Randy Shields, author of "The Cades Cove Story" and a native son born into this broad and beautiful valley long before it became a part of the national park. "The fact is that there was a pretty sizable population in this valley as far back as 1821 when the first settlers arrived with their families, tools, livestock and land grants."

By 1850 the population in Cades Cove had reached 685 and the 15,000 acres of usable farmland were under cultivation, turning the whole valley floor into a neat patchwork of farms.

When the National Park Service took over the cove in 1936 the more modern elements were removed and the cove was preserved as a piece of living history detailing the early Appalachian Mountain lifestyle.

Halfway along the loop road is a working farm of the 19th century with houses, barns and outbuildings, all furnished and used as a sort of open-air museum for demonstrations of pioneer crafts during the summer months.

"The farm is the old John P. Cable farm," Shields says. "There were several Cable families in the cove. Becky Cable lived in the house. She managed a store, kept boarders, farmed her land and cared for the orphaned children of her brother until her death in 1940 at the age of 96."

The showplace of the farm is the John P. Cable Mill built in 1868. The water-powered grist mill with its large overshot wheel still grinds corn raised in the cove.

Adjacent to the mill is a horse-powered sorghum mill which fills the air with the delicious scents of cooking molasses in the autumn when the sorghum cane is ripe and ready for cutting.

"The Olivers were another important family in the cove," Shields says. "Members of the family claim that John Oliver came to Cades Cove in 1818. If that's true, he was here illegally. This was Cherokee land until 1819."

Legally or not, there are still many reminders of the Oliver family in Cades Cove, among them the John Oliver Cabin, the Elijah Oliver Cabin, and the Tipton-Oliver Farm.

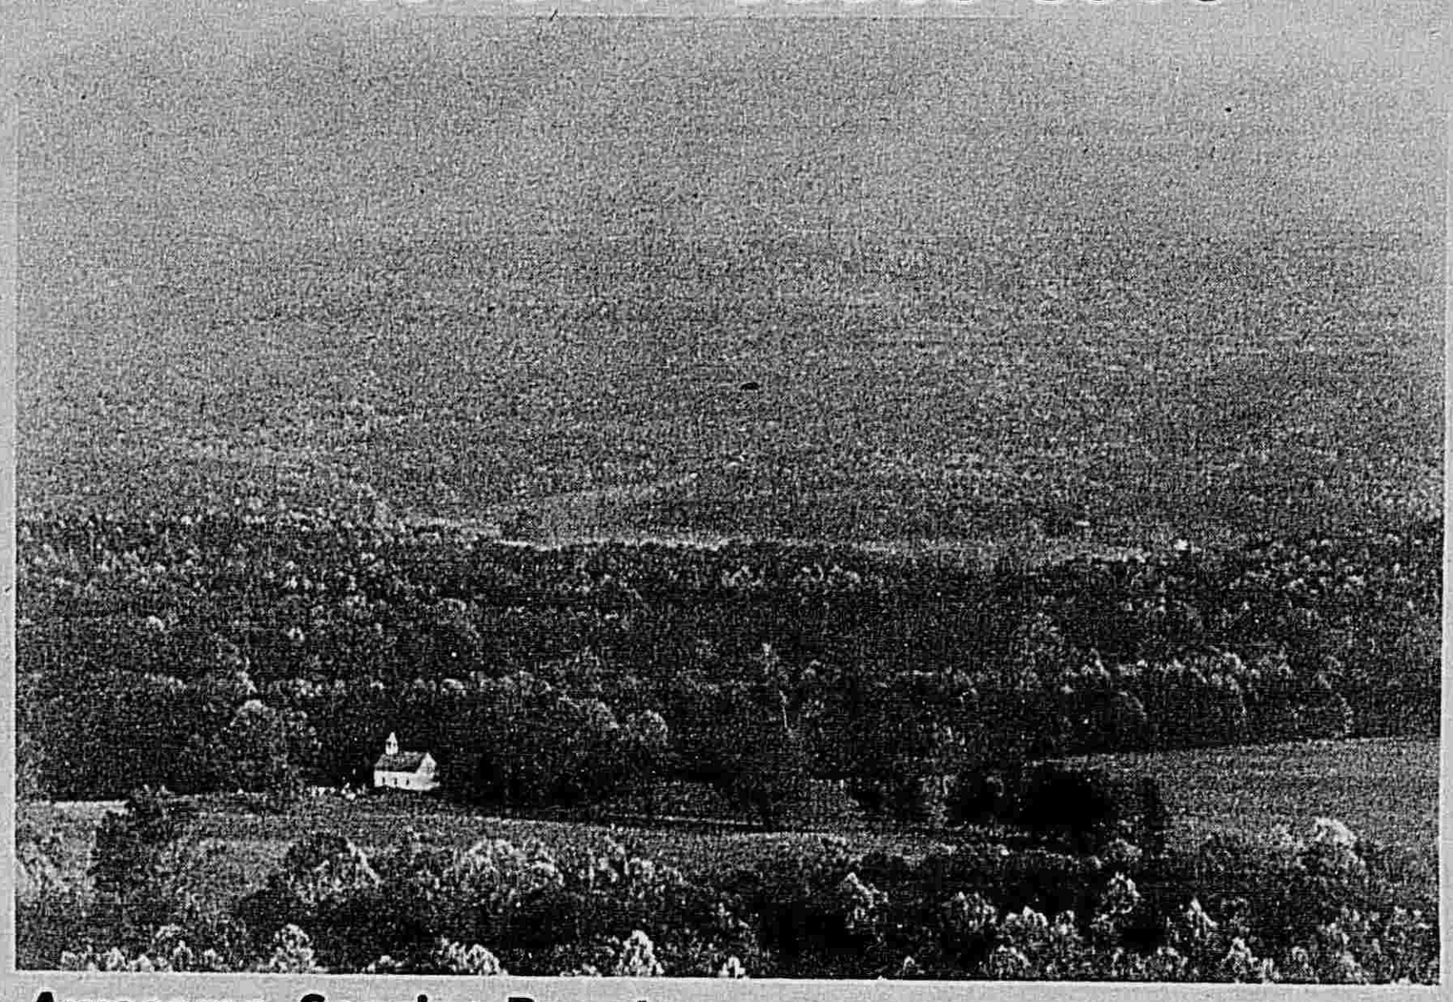

Paths lead from parking areas along the paved road through zig-zag cattle guards in the split rail fences to the old log cabins.

On some evenings the road is closed to automobile traffic and left to the exclusive jurisdiction of bicycles which can be rented at the Cades Cove Visitor Center. There are also delightfully nostalgic evening hayrides along the loop road and miles of hiking trails, including some easy nature trails leading to such treasures as Abrams Falls. Most of all there is a special atmosphere and feeling about Cades Cove that is wonderfully refreshing to the spirit.

"It is the aesthetics of the cove that make it such a special place," Shields says. "The feeling of security in the mountains surrounding it enhances the atmosphere of serenity. I can remember as a small lad growing up in the cove how my grandmother would stare off into space for what seemed to be hours from her rocking chair on the porch. 'What are you doing, grandma?' I would ask. 'Ah, just settin' here soakin' in the mountains,' she'd say."

A lot of things have changed in Cades Cove since then, but it is still possible to just sit and "soak in" the mountains.

Awesome, Soaring Beauty

Log cabin homes and tiny white wood-frame churches of some of area's earliest settlers still stand under soaring peaks surrounding Cades Cove, Tenn. in the Great Smoky Mountains National Park. Old John P. Cable Farm serves as an exhibit area for demonstrations of pioneer lifestyle.

Here's To The Eraser Outlasting The Pencil

by GLORIA DAVIS

In the newspaper business, every printed word goes through several hands before it is read over morning coffee, therefore, sometimes what shows up in print is not exactly what was meant to show up.

I'm not talking here out and out blatant editorial mistakes(those more often than not are source mistakes but hopefully they are immediately corrected), but typographical errors, mispelling of names, etc.

Names can be mispelled because of a misunderstanding in repeating the spelling on the telephone or because of a reporter's sloppy writing in his notes.

Typo's sometimes slip by the proofreader in the same matter that the trees sometimes obscure the forest.

After being in the business for many years, and being cognizant of the many millions of words that appear in one newspaper's issue, I am often amazed that more mistakes are not made, seeing the many processes it takes to produce just one printed word.

Despite all this, such mistakes should not be made and newspapers are constantly trying to improve that situation, but those little graphs entitled CORRECTION are still to be found.

There are many readers who find the fact that a newspaper can make a mistake of any kind unforgiveable. Somehow they seem to think that God chooses to communicate with his people through their newspaper editors

They fail to remember that a newspaper's staff is for the most part, still human. Even the electronic phase is operated by humans, so let us not forget the old "to err is human" bit and do a little more imitation of the "divine!"

When I Think About It

Some of our wisest ancestors have even wiser things to say about making mistakes.

James Montgomery Bailey said, "A blunderer is one who starts a meat market during Lent."

James Gordon Bennet said, "I have made mistakes but I have never made the mistake of claiming I've never made one."

According to H. G. Bohn, "Wise men learn by other men's mistakes, fools by their own."

Bishop Magee came up with a good one when he said, "The man who does not make mistakes, doesn't usually make anything."

But just to show that this column is not an entire cop out, we agree with J. Jenkins who said, "To err is human, but when the eraser wears out ahead of the pencil, you're overdoing it!"

Carney New Fire Chief

William Carney is Antioch's new fire chief. At the village board meeting on Monday, Carney was appointed to fill the vacancy left by Todd Maplethorpe who served in that capacity for 21 years.

The village board commended Maplethorpe for his years of faithful service.

In other business, the board authorized the street department to get bids on striping Orchard St. into a three-lane thoroughfare. The bids will be opened on June 1.

The board also approved a $500 purchase of second-hand playground equipment from the Gurnee Holiday Inn which will probably be placed in Jensen Park.

In other action, the board Ok'ed the seeking of bids for the construction of a second floor storage space on the safety building. The cost, estimated to be in the area of $10,000, will be split by the fire district, the volunteers and the village. The village's share will be $4,700.

After 139 Ballots, County Board Elects Dark Horse

by CHARLES JOHNSTON

After an incredible all-night session, the Lake County Board has chosen Jim Fields (R-Antioch) as its chairman.

The meeting began at 9 a.m. Monday, May 4, with a bundle of candidates, none by the name of Fields. Vice-chairman Andrea Moore (R-Libertyville), Norm Geary (R-Grayslake), C. Richard Anderson (R-Barrington), Matt Miholic (R-North Chicago), and James Dolan (R-Libertyville) were all either announced candidates or the subject of much speculation.

For 138 ballots, no single candidate could garner more than 12 votes (13 are needed to win). The split reflected the same division that exists on most votes on the county board this session.

Most observers speculated that Miholic would be the ultimate winner, as he is one of the few, perhaps the only, board member with strong ties in both camps. But as the afternoon went on, Miholic could garner only the same number that Moore consistently came up with: 12.

Late in the afternoon, Audrey Nixon (D-North Chicago) was proposed as a candidate. Most thought this was a maneuver by Democrats and independent Republicans to bring Sam Payne (D-Zion), who had been voting for Moore, back into the fold. It worked for as long as Nixon was a candidate, but as soon as the Democrats and independents switched back to Miholic, Payne switched back to Moore.

On and on it dragged, each new vote changing but, like a kaleidoscope, leading to nothing.

After going all night and into the morning of Tuesday, May 5, it looked like the board wanted no one to be its chairman. Finally, at 10:15 a.m., an incredible 25 hours and 15 minutes after it started, Fields threw his name into the ring.

Whether from boredom, exhaustion, respect, or perhaps even the novelty of the thing, the board finally voted unanimously to elect Fields chairman. After the vote, he said that he threw his name into the thing never expecting to win, but would do his best.

Board Members Dump Landfill

The Lake County Board voted 22-0 with two abstentions on Tuesday afternoon to deny the application for landfill and incinerator sought by Waste Management of Illinois.

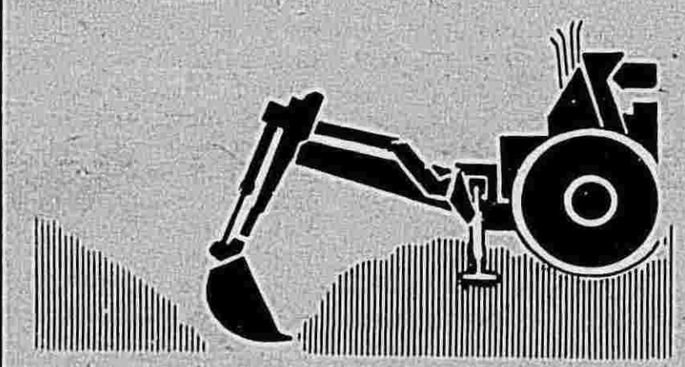

Abstaining were John Balen (D-Waukegan) and Don Strenger (R-Lake Forest). Balen said he did not vote because he had made comments beforehand about the project and Strenger said he owned stock in Waste Management.

Board members objected to the fact that Waste Management's proposal would bypass the competitive bidding process envisioned in the original Solid Waste Advisory Committee report.

While the county board's role is now complete, the application will wind its way to the Illinois Pollution Control Board and, undoubtedly, if it is defeated there, into the courts.

The proposed landfill would have been on the northeast corner of Rte. 83 and Peterson Rd., just south of Grayslake.

How to Prevent Accidents When Digging Near Underground Gas Lines

Natural gas is delivered through a system of underground piping. Some of these pipes might be located beneath the ground where your excavation work is to be done. Personal injuries and property damage can occur if the pipes are struck or disturbed by digging, drilling or blasting.

Before excavating, drilling or blasting, you or your contractor should check to see if any underground gas lines are located in or near the proposed work site.

Call "JULIE" Before You Dig

Just call "JULIE" at (800) 892-0123 to reach Joint Utility Locating Information for Excavators. Indicate the county, township and section in which you will be working. If the gas company or any other participating "JULIE" members have underground facilities at your proposed excavation site, trained field personnel will be dispatched to mark or stake them at no cost to you. The "JULIE" phone line is in operation seven days a week, 24 hours a day. Please call 48 hours in advance of any excavation operations.

Letter To The Editor:

Tell Regrets

Editor:

An open letter to Mayor Ratch and members of the board--

We wish to express our extreme disappointment at the dismissal of Suzi Schmidt as recreation director. We feel Mrs. Schmidt has done a wonderful job coordinating all programs that the recreation department sponsors and especially our "Fun For Tots" program.

Suzi is always quick to respond to any questions that need answering or to materials that are needed.

Her easy rapport between the recreation department and our "Fun For Tots" program is one of the reasons for its tremendous success.

We again express our deepest regrets that this action has been taken. We feel that the recreation department is losing an excellent director and we are losing a respected colleague.

Experts Offer Advice To Apartment Hunters

If you can't afford to buy a home or condo, and must rent an apartment or house, experts say there are some important things you should know.

One is that, as a result of changes in the federal tax law, fewer new units will be built than in the recent past. This will result in an apartment shortage and higher rents in many areas. Tenants will be competing with one another for the best available units in all price ranges. So, just how do apartment hunters find a nice unit in a good building?

The Meyers Report

Economic forecaster Gary S. Meyers has been a lecturer and consultant to major financial institutions government analysts, real estate developers and daily newspapers throughout the nation for the past 16 years. Readers are invited to submit comments and questions for possible use as subjects for future columns. Write Gary S. Meyers & Associates, Ltd., 20 W. Hubbard, Chicago, IL 60610.

Many of the larger metropolitan areas have apartment owners' or managers' associations. While these groups are primarily trade associations representing landlords, many of them supply a guide to the apartments their members own, including rental rates, lists of amenities and sometimes even floor plans.

Other methods of finding an apartment may require more legwork.

"Ask the village hall if they have a list of apartment developments, or call apartment management offices and licensed real estate firms and ask if they have units to rent," suggests Kathi Reifeiss, a Chicago-area property management expert.

If you are apartment hunting in a big city, check newspaper ads and apartment referral service, then plan to spend several weekends looking for desirable neighborhoods, said Eddie Dick of the Apartment Center, a Chicago apartment-finding service.

Rental experts gave the Meyers Report further tips for apartment hunters:

--Expect to fill out an application and pay a fee, which holds the apartment for you while your employment, credit and rental histories are being checked. Find out if the application fee will be returned if you are rejected.

--Ask if there is an extra monthly charge for utilities, such as heat, air conditioning or gas. Ask tenants in the building if there is enough heat in winter. Central air conditioning should be individually controlled. If there are window air-conditioning units, remember that they can double your electric bill.

--Are pets allowed in the building? Sometimes landlords will ask tenants with a cat or dog to provide a larger security deposit. A pet rider, or special clause in the lease governing damage caused by pets, may be required.

--Read the lease carefully. Before signing it, know what responsibilities you are assuming, what you may and may not do with the property, and what the landlord will and will not do.

--Most landlords require a security deposit, usually one month's rent. However, it can be as much as two months' rent. The deposit protects the landlord if he has to clean the apartment or repair damage after you move.

When you move, you are entitled to get the security deposit back within 45 days in most states, if the terms of the lease are met and the apartment is in good condition. Also, many states require that the landlord pay you interest on the deposit.

--If you have a joint lease with a rommate and he or she moves out during the course of the lease, you may be entitled to only half of the security deposit at the end. The law assumes that the roommate paid the other half, and it must be returned to him or her.

--What happens if you must move before the lease expires? Can you sublet? For a tenant, subletting an apartment often means nothing more than taking the responsibility to find someone to move into the apartment and to seeing that the rent is paid until the lease is terminated.

However, a landlord can charge a hefty fee when you break a lease. Such fees, sometimes called "processing fees," are supposed to cover the cost of writing a new lease, advertising and cleaning the vacant apartment, and showing the unit if the original tenant has to leave immediately.

If you can find a new tenant on your own, you may be able to talk the landlord out of charging this fee.

Workshop For Owners

A workshop for persons interested in running their own business will be conducted at the College of Lake County Lakeshore Campus, Waukegan, beginning May 5. "Starting a New Business" will be offered in four parts, from 6 to 9:30 p.m. on Tuesdays and Thursdays, May 5, 7, 12 and 14. Designed to stimulate new business start-ups and expansion of existing firms throughout the area, the workshop is a joint effort of the Lake County Small Business Development Program Committee and the College of Lake County Center for Economic Development. Fee for the course is $55. Registration forms are available at the College of Lake County, North Chicago Five Points Economic Development Corp., Lake County Community Action Project, area churches and participating financial institutions.

Premier Pilot Baker To Address IPA Convention

John L. Baker, president of the Aircraft Owners and Pilots Assn., will be the guest speaker at the Illinois Pilots Assn. Convention banquet on Saturday, June 20.

The IPA will hold the 10th annual convention at the Pheasant Run Resort in St. Charles on June 19-21.

Baker has served a president of the AOPA since May of 1977. He has brought to AOPA a diverse background in aviation that has earned him recognition and distinction throughout the industry.

Prior to Joining AOPA, Bkaer was executive director of federal and public affairs for the Air Line Pilots Assn., involved in the union's political, Congressional, public relations and air safety activities. He also had an executive position with Grumman Aircraft Corp. and from there went to the FAA as assistant administrator for Congressional relations and then moved to a similar position at the Dept. of Transportation. He subsequently returned to FAA as assistant administrator for general aviation.

A former U.S. Air Force fighter pilot, Baker learned to fly at age 15. He has logged more than 11,000 hours, holding a commercial license with single, multi-engine land, seaplane and instrument ratings. Baker keeps current by flying about 400 hours annually to meet with pilots across the country. He is considered the premier spokesman for general aviation.

For information on the IPA convention, call Ken Hermach, chairman, at (312)530-7294, or Ruth Frantz, IPA secretary, at (312)669-3821. Information on the Illinois Pilots Assn. is available from P.O. Box 7367, Springfield, 62791; or phone Jay Hocking, (217)544-3459.

Gurnee Woods Trail Gets Funding For Improvement

The Lake County Forest Preserve Dist. announced that it has received funding assistance in the amount of $95,000 from the Illinois Dept. of Conservation's Snowmobile Grant Program.

The funds are for construction of 1.7 miles of snowmobile trail in the Gurnee Woods site north of U.S. Rte. 41 in Gurnee, east of the Des Plaines River.

Construction is scheduled to start in June and be completed by November, at an estimated construction cost of $275,000.

The Gurnee Woods site straddles a narrow band of land between 100 to 1,500 feet wide separating the Des Plaines River on the west and the CM & SP Railroad to the east. The land nearest the river is a relatively large, undisturbed and isolated stretch of oak and hickory floodplain forest islands traversed by marshes and wet meadows.

This piece of park district land, connecting about seven miles of improved and four miles of unimproved trails on the north to the urban areas of Warren and Waukegan Twps. on the south and east, has always been popular with snowmobile users in the winter and horseback riders and hikers in the summer. The project will upgrade the exisiting 1.7 miles of dirt trail to an all-weather multi-use trail.

The Forest Preserve Dist,. has put a high priority on this project due to the construction of the Des Plaines River Wetlands Demonstration Project immediately to the north of the proposed trail.

During the 1987 construction season, the Wetlands Project will be moving around more than 200,000 cubic yards of earth so the District would have availalbe, directly adjacent to Gurnee Woods, all the fill it needs to build a trail base.

The district had anticipated this being one of the more expensive sections of trail to build, due to it being in the floodplain and the amount of fill necessary to raise the trail three to five feet to keep it dry and passable in normal conditions; and the trail's isolation and long construction hauls necessary from local roads to get the fill to the site.

Donald Strenger, president of the Lake County Forest Preserve Dist., commented that by the end of summer, almost one third of the Des Plaines River Trail from Cook County to Wisconsin would be in place and ready for use by the public.

Plans are being made for a picnic at Van Patten Woods and a bus trip to the Fiesta Italia in Milwaukee this summer. For more information, contact Mary Pundzus at (312)223-8901

Ski School Raises Long Lake Protest

A temporary structure housing the headquarters of the Water Skiing Center of Northern Illinois has been cited for possible zoning violations by the Lake County Building Dept.

County Building Officer Robert Streicher said a trailer located on the property of Frigate Restaurant, on Rollins Rd. between Fairfield and Wilson Rds. in Long Lake, was redtagged "to allow time for the building office to check to see if it is permissible.

The trailer was located at Long Lake by Rogert Kring, owner and operator of the school, which also will have a training center at Cypress Shores Resort, Petite Lake, located at 25621 W. Herman Ave., Antioch.

Streicher said he issued the red tag personally after an inspection on Thursday, April 30.

Establishment of the school at Long Lake, located between Round Lake and Fox Lake and connected to the Chain O'Lakes by the Squaw Creek waterway, has prompted local residents to mount a petition drive to protest.

Leaders of the petition drive said they are basing an appeal to block the school on the premise that it will create a water safety hazard and that it violates zoning regulations.

Grant Twp. Supervisor Alberta "Bertie" Miller reported that her office will help coordinate efforts of the County Building Office and the Sheriff's Water Patrol to investigate.

Seeking Patrons

Members of patron ticket committee map sales strategy for Lake county Republican Federation's spring dinner, at which U.S. Senate Minority Leader Robert Dole (R-Kansas) will be speaker. Fundraiser will be held May 15 at Mundelein Holiday Inn with reception at 6 p.m. From left are Michael Cudahy, past president; David L. Amory, vice president and chairman for patron tickets; Ned L. Fisher, president; and Robert Pasquesi, committee member. Patron tickets are $175 and all who buy them will be invited to VIP cocktail party with Sen. Dole before dinner.

Shooting From New Angle

Kristof brothers Jim (left) and Tom play 'Knockdown,' one of many exciting games in their new 'World of Fun' arcade in Round Lake Beach. Brothers have reputation for being at forefront of new trends. They were first in area to set up mechanical bull, then changed to D.J. type ballroom just before it got hot. Once again, Kristof's has responded to changing times by creating entertainment center for entire family.—Photo by Charles Johnston

Kristofs Opens Up New World Of Fun

by GLORIA DAVIS

While other tavern owners have either quietly gone out of business or have been loudly protesting the drinking laws through tavern associations, Tom and Jim Kristof have kept the crowds coming by making many changes in what was originally a bowling alley and lounge business.

Kristof's Beef and Bowl opened in Round Lake Beach in 1974. Besides the bowling alley, the large leisure complex included several lounge areas that drew 400-500 people on weekend nights.

"We never really had a young drinking crowd," says Tom, "so the 1980 drinking age raise didn't have as much effect on us as it did other bars that catered to teens."

But he adds that the drinking age raise was soon followed by the passing of stricter DUI laws and "there was a strong concentration of police in our area because of the crowds that we had drinking here."

The Kristofs have long been known as leaders in giving their customers what they want, and so in order to change with the times, adhere to present laws, and yet keep their business flourishing, they have changed the entire aura of their business.

Kristof's used to cater to "swinging singles" and young adults in their middle 20's and early 30's. It is now geared towards entertaining the entire family.

The transition includes cutting down on the lounge space and making many smaller entertainment areas.

The most popular of these is the new "World of Fun Arcade" which is chock-full of video and arcade games varied enough to please the fun-loving tastes of both sexes and all ages.

"The ticket redemption program has been going extremely well," says Tom, discussing the promotion wherein people win tickets on the games that can be redeemed for great prizes.

One of the most popular video games is a baseball game. "It's so realistic and such fun that making up an actual baseball league using the game instead of an actual diamond and bat and ball has been seriously discussed," said one customer.

The Kristofs brought in live country western music when everyone was humming "Put Your Haid On My Pillow," and they were the first in the area to have a mechanical bull back when John Travolta had a fever.

Now they have strictly deejay music to furnish customers with the best music available at their request.

With bowling now classed as an Olympic sport, "there has been a renewed interest in the game," says Tom, so the year-round bowling leagues are going strong again after a certain period of 10-pin apathy.

Since volleyball participation has gone from the high school gyms to the international scene with its Olympic tv exposure, people who hold no claim to athletic fame have found they too can compete as a "spiker."

So Kristof's has started outdoor volleyball leagues that have been going over in a big way.

Long known for their banquet facilities, Kristof's has made a change here, too, by making their banquet rooms smaller and better equipped to handle business meetings, small weddings, Chamber of Commerce events and even large family parties.

"We think we have a great place for fund raising events," says Tom. He verbally draws a picture of the entire place being taken over for community events with great numbers of people having a ton of fun, playing all the games, etc. while raising money for worthwhile causes.

Think of the saving of the wear and tear on the ways and means committees of community organizations that decide to use Tom's idea! No long involved planning meetings, no physical labor.

All it will take is a little talk with either Tom and-or Jim sufficiently beforehand so they can make plans to close the place to the public the night of the event.

At present, Kristof's is just serving snack foods like pizza, etc. but "someday maybe we will get back to re-using our restaurant know-how," said Tom.

'1776' Cameo Bananza

Anyone who thinks that American history is a dry subject should go and see Marriott Lincolnshire Theater's latest offering, "1776."

This musical depiction of the writing of the Declaration of Independence and the problems therein, done with a dynamite cast, is not only entertaining, but full of moments that touch the patriotic heart strings.

Critic's Choice In...
Lakeland

Robert Mueller's peristant John Adams is impressive and he and the talented Mary Ernster as his wife Abigail make a great couple.

Richard Henzel's Ben Franklin is a funny and lovable one. He and Mueller, along with Tom Galantich as Thomas Jefferson and Jim Harms as Charles Thompson stop the show with the flag waving "Is Anybody There."

Because of its many cameo parts, "1776" is full of show stoppers with Kathy Santen's (Martha Jefferson) "He Plays the Violin," an outstanding one.

Other stand-out numbers include Kurt Johns' "Molasses To Rum", "Momma Look Sharp" sang by Rick Boynton, and the poignant "Till Then" done by Ernster and Mueller.

This gathering of the different personalities involved in ploting our nation's blueprint can at times get a little wordy (politicians were politicians even way back then) but the well-written script and the acting prowess of Marriott's cast keep the audience interested.

This is a man's show with the women merely slipping in and out of the shadows, but with gals like Ernster and Santen the epethet about "No small roles, just small actors" comes to mind as they command the stage during their comparatively brief appearances.

Kevin Site's and orchestra as usual supply the perfect musical background and they get an authentic Revolutionary War sound when they mix the sounds of the violin, flute, piccolo, flugel horn and other instruments indicative of the music of the period.

Concert Violinist At CLC

Sarah Johnson, an accomplished concert violinist, will make a special performance at the College of Lake County's Grayslake Campus on Friday, May 8.

The performance will begin at 8 p.m. Admission is $6 for the general public and $4.50 for senior citizens and students of the College of Lake County.

Urban Gateways Presents 'Chalk Talk' At Pleviak

Urban Gateways: The Center for Arts in Education presents chalk-talk artist Peggy Lipschutz and singer-musician Rebecca Armstrong in "Songs You Can See" from 9:45 to 10:45 a.m. on Thursday, May 28, at Pleviak School in Lake Villa.

The popular program combines the talents of Armstrong, who sings folk and contemporary songs, while Lipschutz draws large full-color pictures that heighten the meaning, feeling or humor of each song. In addition the pictures drawn remain as a gift to the school.

Urban Gateways, now celebrating its 25th anniversary, reaches some 750,000 students, teachers and parents in 750 schools throughout the Chicago metropolitan area.

The arts agency, hailed as a role model for the nation by the Naitonal Endowment for the Arts, brings the arts to students with programs in the schools and the students to arts with downtown cultural events.

Opal Is Hysterical Down-Home Humor

by GLORIA DAVIS

Four Star Productions is back at Riptides Restaurant in Johnsburg with a luncheon(and sometimes dinner)theater set for special groups.

This time the three talented ladies and their guest star males have tackled one of the "Opal" series by John Patrick.

The homespun humor of "A Husband For Opal" uses a touch of Will Rogers and a smidgin of Ma and Pa Kettle to keep the audience in stitches throughout the performance.

Patrick's work and the talented cast take a not so funny subject, an old man's effort to escape the boredom of a nursing home and his lecherous daughter, and bring our Calamity Jane heroine, Opal to the rescue. The many hysterical scenes, add-up to a funny funny play but don't expect any resemblance to the comedic tradition of the sophisticated humorist Noel Coward.

Anne-Maria Cina, well-known local thespian who seems to be able to do no wrong when she's on stage as far as this reviewer's past experience dictates, "lays 'em in the aisles."

She may not be chic in her bib overalls, but Cina's Opal is definitely a LADY whose down-home humor makes for an entertaining hiatus.

Yvonne Alton, who in reaity is a very attractive woman, is no stranger to the role of a doddering old lady. She played the same type roll and did it more than justice in a previous portrayal at Andre's Dinner Theater in Richmond.

Pink hair net and all, her version of Opal's best(husband-hunting)friend, Rosie, outdoes Ruth Busse's famous "Laugh In" character.

You'll hate Lillian Allen as the lecherous daughter who's waiting for her father to die to get her inheritance. She may be slightly unrecognizable in that blond wig until those famous rolling eyes come into view.

Captian Mooney, the play's subject, is perfect as the 90-year-old playboy who's trying to escape from his daughter's clutches into the arms of a waiting 19-year-old island lover.

And though Danny Turner's part as the daughter's equally lecherous husband isn't the biggest, he comes across with a very professional delivery.

Call Riptides at (815)385-5523 to find out when the next performance of "Opal" is scheduled. You'll be glad you did!

Christian Rock Coming To Great America

The popular sounds of contemporary Christian rock music will fill the air at Six Flags Great America on Saturday, May 16, and Sunday, May 17, at the first of the park's three Joyfest weekends.

Russ Taft

David Meece kicks off the Saturday afternoon concert in Pictorium Plaza at 2 p.m. A graduate of the Peabody Conservatory of Music in Baltimore, Meece is the composer of "We Are The Reason," a song which is considered a standard in Christian music. Meece comes to Great America after a hectic year of promoting his successful "7" album.

Grammy Award winner Michael W. Smith takes the stage at 3:30 p.m. A former opening act for the "queen" of Christian rock, vocalist Amy Grant, Smith proves that he is clearly a center stage musician with recent hists "How Majestic Is Your Name" and "Rocketown."

The second big day of entertainment begins Sunday at 2 p.m. with Grammy Award winner Russ Taff. His solo album, "Medals," contains the streetwise rhythms of "I'm Not Alone," and the title hit, "Medals." *Billboard Magazine* describes his dynamic voice as "the most powerful, most distinctive instrument in Christian music."

DeGarmo and Key winds up the weekend music festival Sunday at 3:30 p.m. with a high-energy performance featuring songs from their latest album, "Street Light."

Great America opens at 10 a.m.; closing times vary. For further information call (312) 249-1776.

ROCK TRACKS

by Rob Ferrus

Five years after The Doobie Brothers announced their farewell tour, they got together to announce plans for three benefit reunion concerts. The Doobies are doing three shows this month on the West Coast to benefit charities that aid poor children, Vietnam veterans and a wing of a children's hospital at Stanford University. Rehearsals begin in San Francisco this week, and performing will be (in alphabetical order, which is the way they announced it): **Jeff Baxter, Cornelius Bumpus, John Hartman, Michael Hossack, Tom Johnston, Keith Kanudsen, Bobby LaKind, Chet McCracken, Michael McDonald, John McFee, Tiran Porter and Patrick Simmons.**

Depending on their solo career schedules, and if they get along during these shows, they may do more. There already are tentative plans for two more shows on the West Coast with a limited U.S. summer tour a strong possibility.

Kool and The Gang are locked in a battle for the title of top hit-making group of the 80's with the California-based band **Journey**. Kool and The Gang have been undisputed holders of the title for the last three years with a total of 15 top-40 hits since January 1, 1980, but two singles from Journey's current album put the California stadium rockers ahead of the New Jersey champions.

Although Journey has pulled a nose in front, Kool and The Gang aren't done yet. They've once again pulled up neck and neck with Steve Perry and Co. with "Stone Love," their sixteenth top-10 hit of the decade. Place your bets.

Run-DMC's LP "Raising Hell" has become the first album in the history of rap music (I know this is a *rock* column, but this amazes me) to sell over three million copies.

So far they are the first rap act ever to hit the top five on the pop album and singles charts, the first to go platinum, the first to reach double platinum status, and the only rap act ever to have two platinum albums — although their 1985 "King of Rock" LP is terrible and simply riding on the coattails of their current one.

YMCA Reconsidering Plan for Pool Closure

By LARRY WITTNEBERT

Dozing YMCA officials trying to sleepwalk its plan through the public on closing the pool at Camp Duncan got a rude awakening when a crowd some 200 strong showed up April 28 to jar them into reality.

Now those officials are doing the backstroke. The public was heard.

Joe Roknich, vice president of operations, YMCA of Metropolitan Chicago, said April 29 that while it's premature at this point to say what will happen to the pool, YMCA is studying the situation.

"We need more facts," said Roknich who conceded that YMCA had hoped to simply shut down the pool and offer transfers to the community users.

But the public thought otherwise. And they resented being kept in the dark about YMCA claims the pool is losing money.

Rick Tobiasz, who presided April 28, echoed the biggest complaint surfacing at the meeting:

"Why didn't they tell us all along they had been losing money?"

Bill Mathis, Camp Duncan executive director, brought the bad tidings April 28, claiming that YMCA is funneling $25,000 a year into the pool operation.

Pool members were also apprised of the alleged subsidy in a letter announcing that the pool would close to the public as of Aug. 15.

Members resented the abrupt notice they received telling them flatly the pool would be closed.

Equally point-blank, they said they oppose inconvenient transfers.

So YMCA is going back to the drawing board, reviewing the pool operation from both a financial and human resources viewpoint.

Roknich was scheduled to meet with Tobiasz and his group at 10 a.m. Wednesday, May 6.

Present plans call for Mathis, also executive director of Camp Pinewood, to shift duties into camping development away from the pool.

That would mean a pool operator would be needed along with a staff to handle related jobs, Roknich said.

Such an option will be included in the fact-finding mission - and YMCA vice presidents will then huddle over results. Their recommendation will go to the president who can subsequently take it before the board.

In other comments, Roknich explained that YMCA plans to renovate Camp Duncan as part of an overall modernization program. "We have an awful lot of work to do at that camp site," he noted.

But the pool members even have an answer for that. A group of skilled craftsmen came forward April 28 offering their labor to fix up the camp.

And that's not all. A different group volunteered to help raise money for boosting the pool's operation.

Roknich said that YMCA sold two of its other camping areas and plans to spend some of the proceeds on Camp Duncan.

And the pool members hold out hope for easing the alleged fiscal crunch as noted Tobiasz:

"As a committee," he said, "we feel that the losses can be overcome."

Members also took issue with YMCA claims alleging lack of community support. Tobiasz said that the group showed Mathis one of the 1986 plaques confirming that membership had exceeded its volume goals.

Mathis in turn said that he was impressed with the hefty attendance and genuine interest. "The comments we made definitely made a statement," Tobiasz said, adding that members are pleased YMCA was represented at the meeting.

"It shows they are concerned about us," he said.

Roknich noted that he would even be open to members' suggestion they be allowed to develop their own YMCA, saying, "I'd be very happy to help them develop an independent YMCA."

Providing background information on the pool was Joe Tobolik, executive director of Camp Duncan from 1969 to 1976 and when the pool was built.

"The pool was originally designed to meet community needs to help people learn to swim," he said, adding that people wanted to safeguard non-swimming children from area lakes.

In the early 1970s, no community pool served that purpose in Fox Lake, McHenry, Wauconda or Round Lake.

(Editor's note: Camp Duncan is located off Rte. 12 west of Round Lake and directly south of Fox Lake. For commentary on the YMCA's proposal, see Publisher William Schroeder's column on the Editorial Page.)

Sheriff May Lift No Wake

by LARRY WITTNEBERT

No wake restrictions between the McHenry and Algonquin Dams could be lifted along the Fox River this weekend if the rainfall situation holds, said Frank Novak, lockmaster.

Those restrictions, set by the McHenry County Sheriff's Dept., are the only ones in effect, he said May 4. He added that there's no danger of flooding along the Fox River.

He did say, however, that due to hefty rainfall Friday night, May 1 and Saturday, May 2, a little more water than normal is flowing through McHenry Dam.

McHenry received over three-quarters of an inch of rain while Lake Villa got over an inch.

"We had some high flows coming in, but those are dropping off," he said.

Novak said water levels on the Fox River and Chain O' Lakes above McHenry Dam are slightly higher than the summer normal.

But he added that the waterways are open to normal traffic and the levels are "not causing a problem."

He also pointed out that there is very little the dam can do to regulate water levels because the flow comes from up river.

Water levels changed drastically from very low to flood range in less than three weeks.

In part, the change was stemmed from two heavy rainfalls plus rain water flowing down from Wisconsin.

Novak said that the problem is also due to higher runoff from the watershed, noting the scarcity of vegetation that helped soak up rain water. Sparse vegetation grows in the spring and fall, he said.

Students Earn WIU Degrees

Fifteen students from the Lakeland area have completed degree programs at Western Illinois University, Macomb, and will be honored at the university's commencement program on Saturday, May 9.

Democrats Can't Shake Image

Steinke On Politics

by JOHN STEINKE
(Political Columnist)

In 1976, Kansas Sen. Robert Dole was the Republican vice-presidential candidate. Dole and Minnesota Sen. Walter F. Mondale engaged in the first tv debate between vice-presidential nominees. Many political analysts criticized Dole for practicing smear tactics when he accused the Democrats of being the war party. Some observers believe that Sen. Dole's remarks contributed to President Gerald Ford's 1976 loss to Democrat Jimmy Carter.

Yet, the Kansas senator's comments possess historical substance. When it comes to war, Democratic presidents have a tendency to campaign for election like lambs. But once elected, they act like lions. Republican President William Howard Taft lost in 1912 when his old mentor, former President Theodore Roosevelt, ran against him and fatally split the Republican vote. A Democrat, Woodrow Wilson, won with only 40 percent of the popular vote. Wilson was the underdog when he ran again in 1916 at the height of World War I. Nonetheless he won reelection on the slogan, "He kept us out of war." A few weeks after his inauguration on March 4, 1917, he quickly took the country into World War I against Imperial Germany.

In 1940, Franklin D. Roosevelt became the nation's first third-term president in a campaign highlighted by the Roosevelt pledge that no American boys would ever fight on foreign soil. But, in 1941, the boys were on their way to fight Nazi Germany and Japan. In 1950, President Harry S. Truman committed American forces to the defense of South Korea to stop communist aggression. Truman characterized the conflict as a "police action" and fired Gen. Douglas MacArthur. The general contended, "There is no substitute for victory." War Hero Dwight Eisenhower buried Democrat Adlai Stevenson in 1952 with his "I shall go to Korea" peace theme.

President Lyndon B. Johnson in 1964 campaigned against Sen. Barry Goldwater as a trigger-happy warmonger who would embroil us in the Vietnam conflict. Yet, shortly after Johnson's 1965 inauguration, U.S. troops were on their way to South Vietnam and American warplanes were bombing North Vietnam. Democratic presidential nominees always reassure American mothers about their aspirations for peace. Yet their policies have produced weeping parents awaiting the arrival of sightless sons, or sons in body bags.

Tickets are available from the YMCA, (312)949-0060, or through its board members and volunteers.

THE FAMILY of Edward J. Frazier wishes to openly thank the Antioch Rescue Squad, Victory Memorial Oncology floor, Kathy Nelson UNRN, Father Hanley of St. Peters Church Antioch and all our family and friends who gave their time, love, and condolences during the loss of my husband and their father. 10 reasons why you should maintain and increase your newspaper advertising when business is slow.

1. Whether business is good or slow, you have to get your share of whatever business is around. Cutting back your advertising puts you at a disadvantage at the very moment when you need an edge. Increasing your advertising gives you the edge.

2. In times of uncertainty, consumers are careful and a little reluctant to spend. They want to be sure before they buy; they want information about products, services, prices and values. The best source is newspaper advertising. Yours—or somebody else's.

3. Maybe you figure other retailers in your line are going to cut back their advertising, so its's safe for you, too. Right? Wrong. You're in competition for the customer's dollar with very other retailer in town, no matter what he or she sells. People have only so many dollars to spend and if they don't spend them for what you sell they'll spend them for something else.

4. There are more people working now than ever before. More women working, too, adding to the family income. People still need and want goods and services and will spend for them. There is plenty of business out there. Your competitors will be bidding for their share—and yours.

5. You can't do much about most factors in the marketplace: rent, labor cost, price or merchandise, what the competition will do. But one thing you do control is your own promotion. Remember that newspaper advertising is not just a cost of doing business. It's a proven sales tool that returns many times your investment in store traffic and sales.

6. Remember how long it took you to get started? Once you build up a business, you can keep it going with a moderate, consistant advertising program. But if you cut your advertising and lose your hold on the public's awareness you'll find it's much harder to build it up again. It's sort of like starting all over.

7. Your advertising is part of your sales force. Newspaper ads help to pre-sell the customers and help you close the sale faster. What saves you time saves you money.

8. You say your customers know you and for a while at least they'll keep coming in even if you don't promote? That's partly true, but shortsighted. Remember, one out of five Americans moves every year. So there's a steady flow of your customers out of your market, and a corresponding influx of new folks who don't know you at all. Tell them about yourself.

9. Here's a hard fact to chew on. Over any given period, a business that advertises below the industry average has sales that are below the industry average.

10. Advertising is "news" — about products and services. Your customers look for this kind of news in the pages of Lakeland Newspapers. In plush times, retailers often experiment with other media. But when the going gets tough, they concentrate their efforts in the newspaper because it provides an immediate payoff at the cash register.

Used Car Loans For People Who'd Rather Spend Less On A Used Car And More On Themselves.

9.9% APR on any used car.
The only problem with most used car loans is that they usually come with pretty high interest rates.

Which usually means a bigger monthly payment than you'd like.

So now until May 30 is a good time to see us. Because our used car rate is our lowest in years.

And since it's good on any used car, you can buy the car that suits your budget.

Just make your best deal with a dealer or private seller. Then talk to us.

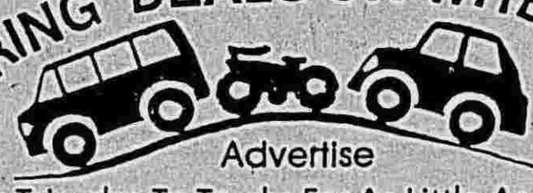

You could end up getting a better deal than you bargained for.
